Appeals Policy and Procedures

Appeals to Decisive First Aid

1.1 Appeals

Any individual or organisation that is affected by an assessment decision made by Decisive First Aid and their assessors is eligible to take advantage of the appeals process.

1.2 Candidate appeals

Appeals may be made regarding areas of concern from candidates, including but not limited to:

- Administration and assessment errors.
- Perceived discrimination.
- Request for reasonable adjustments or special considerations.
- Failure to take into account any special circumstances.
- Decisions relating to malpractice or misconduct.

Candidates are strongly recommended to informally pursue any appeal, enquiry, or grievance by making a telephone or email enquiry to Decisive First Aid, before following formal systems, as many appeals can be resolved satisfactorily through these informal means.

There is a time limit for making appeals of 3 weeks from course completion. There is a time limit of a further 3 weeks for [Decisive First Aid](#) to review this appeal.

Disagreement with an assessment judgement is not normally grounds for an appeal. Decisive First Aid assessors follow strict criteria when making their assessment decisions in accordance with ITC assessment specifications.

Appeals generally fall into the following broad categories:

- a) Administration error - perhaps a mistake in recording results.
- b) Assessment error - perhaps using criteria other than those specified in the qualification.
- c) Discrimination - the method of assessment was not fair and reasonable under the circumstances, or the assessor was biased or prejudiced.
- d) Decisions regarding reasonable adjustments and special considerations
